DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-32 are rejected under 35 U.S.C. 102(b) as being anticipated by H.R. Anderson et al. (US/3,418,485)

Anderson et al. discloses an air duct for use with a portable power module trailerable over public roads (easily can be mounted to flat bed for trailering over roads), the portable power module including a container (31) having an air inlet and housing a gaseous fuel motor (turbine 33) drivablely connected to an electrical power generator (34) capable of producing at least approximately one megawatt of electrical power, the air duct comprising: a body (32) positionable adjacent to the air inlet on the container to at least partially define a first opening and a second opening, the first opening defining a first opening dimension and being parallel to a first direction and the second opening being at an angle to the first direction, the body further defining a first body dimension in the first direction and a second body dimension in a second direction that is at least substantially perpendicular to the first direction, the first body dimension being greater than the second body dimension. The first body dimension is measured inward of drawing one, second body dimension would be horizontal in the second opening. (0

Art Unit: 3747

degree turns for attenuation are disclosed as is filter material and radiator in second duct.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold Castro whose telephone number is (571)272-4839.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yuen Henry can be reached on (571)272-4856. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
